PROFILE

Highly skilled Mobile Engineer with a proven track record of developing cutting-edge mobile applications for iOS, Android, and React Native platforms. With a deep understanding of mobile development best practices and a passion for creating user-friendly, high-performance applications, I bring a wealth of expertise to any project. My experience spans multiple industries, including e-commerce, healthcare, and finance, allowing me to adapt to diverse project requirements and deliver innovative solutions.

SKILLS

iOS | Objective-C | Swift | UIKit | SwiftUI | Android | Java | Kotlin | React Native | XCode | Android Studio | Sencha Touch | HTML | CSS | JavaScript | MVC | MVVM | Clean | RESTful Web Services | SOAP | GraphQL | Firebase | AWS | Unit Testing | UI Testing | CI/CD | Jira | Git | Agile | Jenkins | Instruments | Stripe | Reactive Programming | C# | ASP.NET

WORK EXPERIENCE

Mobile App Developer | Nexuss Limited

Jan 2024 to Present

- Built efficient and well-designed mobile applications for both iOS and Android platforms, adhering to best practices and industry standards.
- Designed and developed applications with a focus on performance and scalability, ensuring they meet the detailed requirements of the development team.
- Designed and developed APIs using .NET framework, ensuring robustness, security, and scalability of backend services to support mobile applications.
- Collaborated closely with fellow developers, testing operations, and architecture teams to ensure seamless integration and compatibility across the enterprise when implementing projects and technological changes.

Application Development Senior Analyst | Accenture Private Limited

Sep 2021 to Apr 2023

- Collaborated with the business to gather comprehensive requirements and specifications, ensuring alignment with organisational goals and user needs.
- Designed, developed, and configured iOS Native applications to meet business process and application requirements, delivering user-friendly and efficient mobile solutions.
- Proactively identified and resolved production issues, guaranteeing the continuous performance and reliability of mobile applications.
- Implemented optimisation strategies to enhance the speed, efficiency, and overall performance of mobile applications, resulting in improved user experiences.
- Worked closely with Mobile Architects, UX/UI Designers, and cross-functional team members to ensure seamless integration and alignment with project objectives.
- Leveraged modular architectures, next-generation integration techniques, and a cloud-first, mobile-first mindset to build cutting-edge mobile applications that met modern industry standards.

Technology Analyst | Infosys Limited

Dec 2018 to Sep 2021

- Completed the design, development, and optimisation of advanced features for iOS applications while providing technical guidance and support to junior engineers.

- Reached high standards by collaborating with cross-functional teams, conducting code reviews, and ensuring adherence to coding standards, resulting in high-quality iOS applications.
- Attained success by contributing to system technical design, implementing CI/CD processes, and conducting automated testing activities to ensure high-quality and reliable mobile applications.
- Significantly improved app performance and reduced loading times by 10% through proactive code optimisation and algorithm enhancements.

Software Engineer | Sparksupport Infotech Pvt Ltd

Dec 2016 to Nov 2018

- Successfully developed and maintained high-quality iOS applications by implementing clean and scalable code, conducting unit testing, and optimising application performance.
- Stayed updated with the latest iOS development trends, participated in code reviews, and fixed bugs to deliver stable and efficient OS applications.
- Completed important projects on time and within budget, making clients happy and increasing client loyalty
- Built strong relationships with clients, leading to repeat business and gaining new clients, boosting our revenue.

Associate Software Engineer | Digital Mesh Softech India P Limited

Oct 2014 to Dec 2016

- Developed and managed iOS apps with a focus on speed, dependability, and user-friendliness, using clean coding and extensive testing.
- Contributed to a productive and collaborative work environment through effective code reviews and knowledge sharing.
- Consistently adhered to clean coding practices, ensuring code maintainability and ease of collaboration within the development team.

EDUCATION & QUALIFICATIONS

Mahatma Gandhi University - Bachelor of Technology Computer Science and Engineering

July 2014 to May 2016

Graduated with a CGPA of 6.85.
